Dear Jennifer,

Congratulations to all of the partners on the grand opening of the Twin Creek Preserve, Mill Creek Confluence Project in Sharonville, Ohio. As a member of the Senate Energy and Natural Resources Committee and an avid outdoorsman, I have a keen interest in conservation, alternative energy and effective management of our water resources.

Your collaborative work to alleviate localized flooding and to improve the chances of Mill Creek's watershed compliance with state biological and water quality standards is to be commended and is important to the future of the Mill Creek, surrounding communities and the people of the State of Ohio.

Congratulations again on all the great work Mill Creek Watershed Council is doing for the community, and please do not hesitate to contact me if I can ever be of assistance.

All best,

Rob Portman
